

VALUE PROPOSITIONS

- We provide an all-in-one platform that connects pet owners with everything their pets need.
- This includes access to pet food (dry food), pet supplies, veterinary services, and clinics.
- The platform simplifies communication between pet owners and veterinarians, making it easier to book appointments and get consultations.
- We also ensure fast and reliable access to emergency veterinary services, helping pet owners find immediate care in urgent situations.
- In addition, we aim to build a strong community where pet owners can connect, share experiences, and support each other.

COST STRUCTURE

The platform will incur costs in the following:

- website development
- Hosting and servers
- Marketing and advertising

KEY PARTNERS

The success of the platform depends on strong partnerships with:

- Veterinary clinics and hospitals
- Pet product suppliers
- Payment gateways such as Paymob

KEY ACTIVITIES

- Platform development and maintenance
- Managing bookings and payment processes
- Partner onboarding (veterinarians, clinics, and brands)
- Marketing and user acquisition

TARGET CUSTOMERS

Our platform is designed for:

- Pet owners
- Veterinarians
- Veterinary clinics
- Veterinary hospital

MARKETING & CUSTOMER ACQUISITION

We will attract users through:

- Social media advertising (Instagram, TikTok)
- Influencer marketing in the pet niche
- Partnerships with veterinary clinics

REVENUE MODEL

- We generate revenue through multiple streams:
- Commission-Based Model:
 - We take a percentage from each transaction made through the platform (clinic bookings, services).
- Advertising:
 - Revenue from ads placed by veterinarians, clinics, or pet-related brands and products.
- Subscription Plans (Optional):
 - Premium monthly or yearly subscriptions

CUSTOMER RELATIONSHIP

We aim to build and maintain strong relationships with users through:

Web - based chat with veterinarians

Real-time chat and updates for instant communication

Notifications (appointments, vaccinations, offers)

AI-assisted support for quick and intelligent responses

COMPETITIVE ADVANTAGE

- Fast and reliable emergency veterinary services
- Emergency routing that connects users to the nearest available care instantly
- An all-in-one solution for pet care needs
- A combined ecosystem of services and community in one platform
- Generative AI booking assistant that simplifies scheduling and service selection
- AI-assisted support for fast, intelligent, and automated user assistance
- Advanced vet discovery features to help users find the best veterinarians and clinics
- Real-time chat and updates for instant communication between users and service providers
- Lost & Found system to help users report and locate missing pets
- Access to extended services such as pet adoption and grooming
