WHAT YOU CAN DO

Book a real appointment

Live availability from the clinic's own schedule. Your confirmation email arrives with a calendar invite attached.

Bring them home

Pin exactly where your pet went missing. Neighbours are alerted, sightings come in, and possible matches are found for you.

Train with certified pros

Browse trainers by method and specialty, read their certifications, and book a session near you.

Ask VetAI, any hour

Describe symptoms in English or Arabic. Emergencies are flagged the moment you type them — never left to guesswork.

Shop verified stores

Food, toys and wellness from licensed local shops — with star ratings that only appear once customers actually leave one.

Never lose the record

Vaccinations, visits and medical notes stay on your pet's profile — and reach the next vet who needs them.
